WASHINGTON NEWS

Minister Woodford Will Arrange to Leave Madrid at Moment's Notice--Message on Monday.

WAR EXPECTED BY CABINET

Ways and Means Committee Drafting War Revenue Measure--General Lee Will Probably Make Startling Discoveries--Powers Will Do Nothing.

Washington, D. C., April 8.—The administration is steadfastly avoiding all possible outward evidence of a crisis in Cuban affairs. The president's message will be placed before congress on Monday unless some radical event should happen to change the plans of the president. In the meantime the evacuation of American citizens from Cuba will continue and Minister Woodford will arrange affairs so as to leave Madrid at a moment's notice.

The senate committee on foreign relations informally discussed the situation today. No one seems to doubt that war is inevitable. Cabinet expects war. Today's cabinet meeting was mainly devoted to an informal discussion of the situation. The president's demeanor was grave. The proceedings indicated that there was no expectation that war could be averted although no fresh developments were brought to the attention of the cabinet. The joint note of the powers was considered, but it will have practically no effect on actual conditions. Consul General Lee, it was reiterated would surely leave Havana on Saturday, according to the cable instructions. Just when Minister Woodford is expected to vacate his post was not ascertainable.

Will Be Out of Cuba By Saturday. Assistant Secretary Day announced this afternoon that all citizens of the United States now in Cuba, who desired to leave, including General Lee, would positively be out of the island by Saturday.

Drafting War Revenue Measure. The members of the ways and means committee are busily engaged with the treasury officials in work preliminary to drafting a war revenue measure, to be introduced in congress immediately upon the opening of hostilities with Spain. An increase of internal revenue on beer from \$1 to \$2 per barrel, and large increase of the tax on manufactured tobacco, including cigars and cigarettes, have been practically agreed upon. Bank checks, bills of exchange, drafts, deeds, mortgages and other paper of this class, patent medicines and nostrums in all probability will also be added to the list.

Theough estimate is that the increase in these articles alone will approximate, if not exceed, \$100,000,000. The bill providing for a temporary loan of \$100,000,000 and a permanent loan of \$500,000,000, at 3 per cent, payable in gold, has been prepared by the ways and means committee, and will be immediately introduced in case of war.

General Lee Will Make Startling Discoveries. Representative Lorimer (Ill.) is authorized by the statement that General Lee will make some startling discoveries before the senate committee on foreign relations regarding the conspiracy to blow up the Maine. "I understand General Lee is to supply the missing link in the testimony," said Mr. Lorimer. "My information is that Captain Sigbee is in possession of the facts, but does not feel at liberty to give them out until the person who gave them to him releases him from the secrecy imposed. That person, I understand, is General Lee."

It is stated that the information General Lee is expected to testify to relates to the extinguishment of electric lights in Havana at the instant of the blowing of the Maine occurred. Electrical experts have said that it would be conclusive evidence that the mine under the Maine must have been fired from the shore electrical connection.

Learning About Cuban Government. R. D. Albertini, secretary of the Cuban legation, and B. C. Guerra, representing the Cuban junta, were heard by the senate committee on foreign relations today relative to the status of the Cuban government.

Amount of Cuban Bonds Sold. Some interesting facts were developed before the foreign affairs committee of the house today. The deputy treasurer of the Cuban republic appeared with his books, which were inspected by the committee. He explained that of the \$10,000,000 in bonds authorized, only \$123,000 had been actually disposed of. For some of the bonds par had been obtained, while the lowest price at which any were sold was 25 cents on the dollar. He said the De Lome letter was abstracted by a clerk in the postoffice in Havana, who was in sympathy with the Cuban cause and sent to New York.

Quezada's Hearing Continued. The foreign affairs committee of the house today continued the hearing of Quezada, representative of the Cuban republic in this city. President Palma was also present.

Republicans and Democrats Joining. The steering committee of the Republican house conference, appointed last Wednesday to canvass the situation and ascertain how many Republicans will, if the president's message does not go to congress on Monday, join with the Democrats to secure action upon a resolution declaring for the independence of Cuba and armed intervention, met at 3 o'clock. Mr. Lorimer of Illinois, says that over 100 house Republicans have already agreed to act with them. "I am satisfied," said he, "that when we show the speaker that we have a majority of the Republicans he will bow to the will of that majority."

Foreign Powers Will Do No More. Inquiry at the foreign embassies and legislatures today made it plain that the action of the great powers on yesterday in presenting the joint note to President McKinley urging peace, constituted all that these powers will do.

Porto Rico Consul Coming Home. It was learned today that the United States consul at Porto Rico is about to leave his post.

Prize Fight Ends Fatally.

Columbus, O., April 8.—George Stout, of Philadelphia, who was knocked out by Oscar Gardner, the "Omaha Kid," in a hot fight last night, died today from the effects of a blow received in the fight.

Anglo-Egyptian Forces Victorious.

Cairo, Egypt, April 8.—The Anglo-Egyptian force, after a night march, arrived at dawn at the enemy's camp. When the trenches of the dervishes had been bombarded, the whole Anglo-Egyptian force made a brilliant rush for Zaratula and trenches. The dervishes reserved fire until the attacking force was quite close, but were compelled to flee. Mahmud, the Dervish general, was among the prisoners captured.

DENVER TO COMPLETE.

New Tariff Schedule for the Santa Fe for New Mexico Points.

Denver, Colo., April 8.—The Santa Fe road may give Denver jobbers a new freight schedule, which will enable them to compete in New Mexico and other southwestern points with Missouri river and other eastern shippers. This decision was the outcome of a conference held between a committee of the Denver freight traffic bureau and General Freight Traffic Manager W. H. Biddle and General Freight Agent F. C. Gay of the Santa Fe road. A new schedule was drawn up, which was forwarded to the head officials of the Santa Fe railway at Chicago for approval.

GOVERNMENT INDIAN SCHOOLS.

Supervising Teacher to be Assigned to the Pueblo and Jicarilla Agency.

Captain Chas. L. Cooper, Tenth U. S. cavalry, the courteous and efficient agent at the Jicarilla and Pueblo Indian agency here, has been informed by the Indian office that a new official is to be assigned to duty under him, namely a supervising teacher of schools at a salary of \$840 per year. The station of this new official is to be at the agency in this city. There are at present under Captain Cooper's charge and in successful operation, 14 government day schools at the different pueblos and one contract school as follows:

FLEET IS NOT READY

Spanish Ships Not Prepared for Service--Torpedo Flotilla Will Remain at Cape Verde.

MINE CONNECTED TO SHORE

London Electrician Gives Some Positive Testimony Regarding Destruction of the Maine--Minister Woodford's Action Considered Warlike.

New York, April 8.—A dispatch today to the World from Cadiz, Spain, says: The report that the Spanish squadron of evolution and second flotilla of torpedo boats are about to sail for Cuba or Porto Rico is absolutely false. Positive orders have been sent to the Cape Verde islands for the torpedo squadron to stay there. Neither squadron gathering here is anything like ready for sea service.

Positive Testimony. Joseph Paul Ibbens, the electrician who supplied the submarine mines to the Spanish government, cables from London to the World: The only submarine mines supplied to the Spanish government since 1886-87 were manufactured under my patents. I then supplied them with 56 ground mines and 25 buoyant mines, each containing a charge of 500 pounds of gun cotton, and 15 electric contact mines to be exploded either on contact or by service from the shore, each containing a charge of 100 pounds of gun cotton. The mines sent to Havana would still retain full effectiveness. They will last under water an indefinite period. As to the contradictory assertions of the Spanish legation at Washington and General Weyler, that there are no submarine mines in Havana harbor, I absolutely affirm that I shipped the above mines for Havana and Ferrol in a Spanish ship, the property of the Spanish government and officered by Spanish naval officers.

My mines are in electrical connection with the shore, and it is quite impossible that they could be exploded except by design. I have not the slightest hesitation in saying that the Maine was deliberately destroyed with a 500-pound ground mine invented and supplied by me. I am satisfied that the explosion was caused by a ground mine—not a buoyant mine—for the Havana harbor is too shallow to admit of the use of the latter. I am prepared to satisfy by demonstration to any jury of reasonable men that this is the true explanation of the destruction of the Maine.

Exodus Not Yet Begun.

A special to the Commercial Advertiser from Havana today says: The expected exodus of Americans and those who have not occurred yet, except on a small scale. General Lee and the newspaper men expect to go to Key West on the Fern and they may leave on Saturday, but that program is subject to change.

Miss Clara Barton Will Leave Cuba. At central headquarters of the Central Cuban Relief committee in this city, it was said today that Miss Clara Barton was expected to leave Cuba with her nine assistants, in company with Consul General Lee, tomorrow.

Minister Woodford Will Not Leave Before Monday.

Madrid, April 8.—A calmer feeling prevails here today. The statement published in London that United States Minister Woodford is to leave Madrid on Sunday is untrue. Minister Woodford said today that it might be taken as a fact that no date could be fixed for his departure until after President McKinley's message had been sent to congress, and to leave the Spanish capital before would prejudice the whole case.

Considered a Warlike Preparation. The ministers at yesterday's cabinet council considered Minister Woodford's withdrawal of the note of the collective powers a warlike preparation, and, it is alleged, something else was done which has not yet transpired. The greatest curiosity is felt regarding this unknown subject but rigid silence is maintained. It is intimated that the secret matter refers to something officially formulated by the pope.

Strict Censorship at Havana. Havana, April 8.—Everything is quiet

here. All code telegrams from or to Cuba have now to be translated at the censors office with code books in sight.

Another Man-of-War Ready.

Philadelphia, April 8.—The gunboat Princeton, built at Dialogue's ship yard, at Camden, is ready to be turned over to the government for service.

American Interests Left in Care of British Consul.

Kingston, Jamaica, April 8.—The steamer Brookline arrived at Port Antonio this morning from Santiago de Cuba with United States Consul Pulaski, E. H. Hyatt, the consul, and 25 Americans. All was quiet at Santiago. The American interests at Santiago have been left in care of the British consul.

Charges Against District Attorney Crist.

Certain charges of malfeasance in office, having in his possession territorial funds illegally, and dereliction of duty, against J. H. Crist, district attorney of the counties of Santa Fe, Taos, Rio Arriba and San Juan, having been filed with Governor Otero, the latter has spent part of the last two days in examining the same. The charges have not been made public as to specifications, but the above is their general character. The governor has the matter under advisement.

It is not known at this writing what the result of the investigation is. The rumor is that District Attorney Crist will resign either this afternoon or tomorrow.

Corrillo town tax, \$7.81.

Total collected and turned over, \$1,901.58.

COMFORTING WORDS TO WOMEN.

The Surgical Chair and its Tortures May be Avoided by Women Who Heed Mrs. Pinkham's Advice.

Woman's modesty is natural; it is charming. To many women a full statement of their troubles to a male physician is almost impossible. The whole truth may be told to Mrs. Pinkham because she is a woman, and her advice is freely offered to all women sufferers.

Mrs. O. E. LADD, of 19th and N Sts., Galveston, Texas, whose letter is printed below, was completely discouraged when she first wrote to Mrs. Pinkham. Here is what she says:

"DEAR MRS. PINKHAM—I wrote to you some time ago, telling you of my ills, but now I write to thank you for the good your remedies have done me. I have used two bottles of Lydia E. Pinkham's Vegetable Compound, three packages of Sanative Wash, and one box of Liver Pills, and to-day I call myself a well woman. I suffered with backache, constant headache, whites, sick stomach, no appetite, could not sleep, and was very nervous. At time of menstruation was in terrible pain. Your medicine is worth its weight in gold. I never can say enough in praise of it. I have recommended it to many friends. If only all suffering women would try it, there would be more happy homes and healthy women. I thank you for the change your medicine has made in me.

Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice, have saved thousands of women from hospital operations.

The lives of women are hard; whether at home with a ceaseless round of domestic duties or working at some regular employment, their daily tasks make constant war on health. If all women understood themselves fully and knew how exactly and soothingly Lydia E. Pinkham's Vegetable Compound acts on the female organs, there would be less suffering.
